

Introducing the

# NHS Knowledge and Library Hub

SWFT users <http://tiny.cc/SWFTKLSHub>

GEH users <http://tiny.cc/GEHKLSHub>

Search journal articles, e-books, guidelines and clinical decision tools, **all in one place.**

**Go directly to full text**, as an immediate download or on request from an NHS library.

**Avoid the less-reliable sources** you might find in a general web search.

**Click the text on the yellow bar to log in with your NHS OpenAthens account.**

This lets you see the full text of all the resources NHS libraries buy for you.

**Type your search words in the box and click Search.**

You can search for a topic, a journal article or a book or journal title.

**You will see results which contain all your search words.**

The search options let you choose alternative ways to search.

**Go directly to other resources when you know what you need.**

Do a detailed search or explore a specific resource from the links below the search box.

The screenshot shows the NHS Knowledge and Library Hub website. At the top, a yellow bar contains the text "Welcome, Guest. Sign in to your institution for full access to your library's resources." Below this is a blue navigation bar with links for "New Search", "Journals A-Z", "Register for NHS OpenAthens", "library.nhs.uk", "Language", and "Help". The main content area features the NHS logo and the title "NHS Knowledge and Library Hub". A search bar is present with the text "Searching: Health and care evidence, from Health Education England". The search bar includes a "Keyword" dropdown, an input field with the placeholder "Enter any words", and a "Search" button. Below the search bar are links for "Search Options", "Basic Search", "Advanced Search", "PICO Search", and "Search History". At the bottom, there are four columns of links: "Clinical decision making" (NICE Guidelines, NICE Evidence, BMJ Best Practice), "In-depth searching" (AMED, British Nursing Index, CINAHL, Cochrane Library, EMBASE, EMCARE, Medline), "Other resources" (NHS Learning Hub, Directory of Health Libraries, Patient Experience Library, How to search the literature effectively, Health literacy: you can make a difference, Knowledge Mobilisation Framework), and "NHS OpenAthens" (OpenAthens Registration, OpenAthens Password Reset, Having Problems with OpenAthens?).

## Change your search

- 1 Add or remove search words in the **search box**.
- 2 See your **Search History** to combine results of different searches.
- 3 Alter the search options under **Current Search**.
- 4 Add **limits** to narrow your results by date, type or other options.

## View your results

- 5 Click **Relevance** to sort your results by date.
- 6 **Page Options** lets you change the layout and increase the number of results displayed.
- 7 The **detail** icon  on each result shows you more information.
