BrowZine App: Quick Start Guide

Download • Sign in with NHS OpenAthens • Read • Save • Stay updated

The BrowZine app lets you browse journals and create virtual bookshelves of your favourites. It's ideal for skimming through the latest issues, with links to the full text where available, or to request from the library. You can also set up content alerts via email.

Step 1 - Download the app

The app is available for Apple, Google (Android) and Amazon devices. Search for **BrowZine** in your app store, or choose a QR code below:

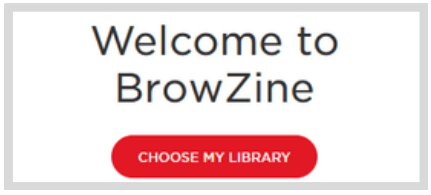
Apple **Google** **Amazon**

Tap Install or Get App and wait for the download to complete.

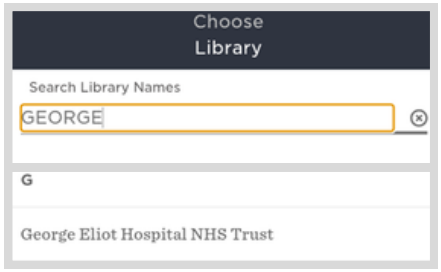
If you can't download the app right now, you can access these features on the BrowZine website at **browzine.com**

Step 2 - Choose your library

When you first open the app or visit the website, you will need to choose your library:

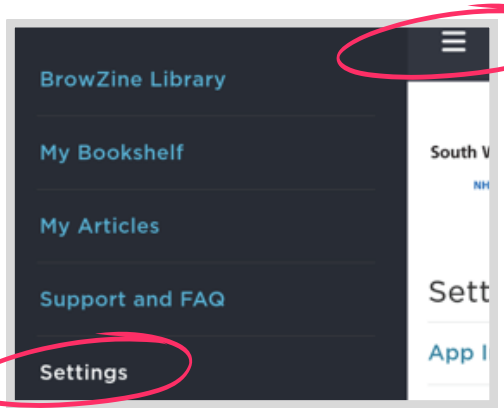


Start typing your Trust name (either **George Eliot...** or **South Warwickshire...**). As you type, you should see the correct option appear for you to select:

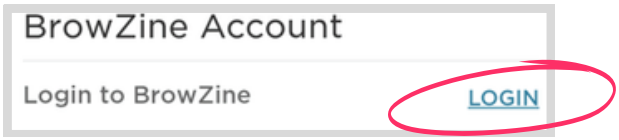


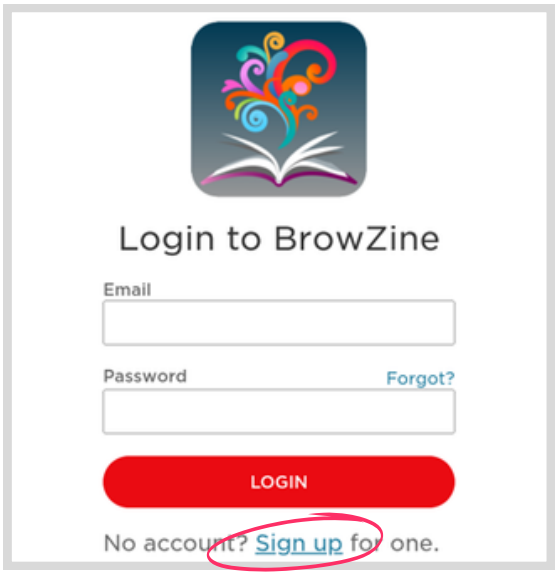
Step 3 - Create your account

Use the ≡ menu icon in the app (⚙️ on the website) to access **Settings**:



Select the **Login** link and then **Sign up**. You can register with either a work or a personal email address.

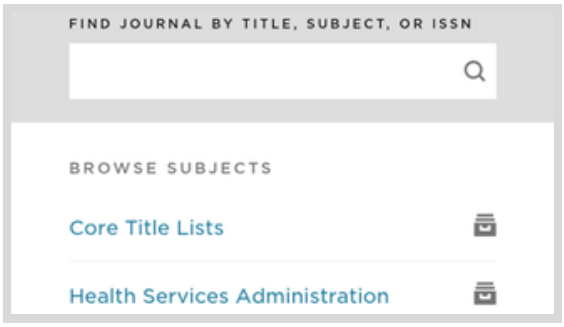


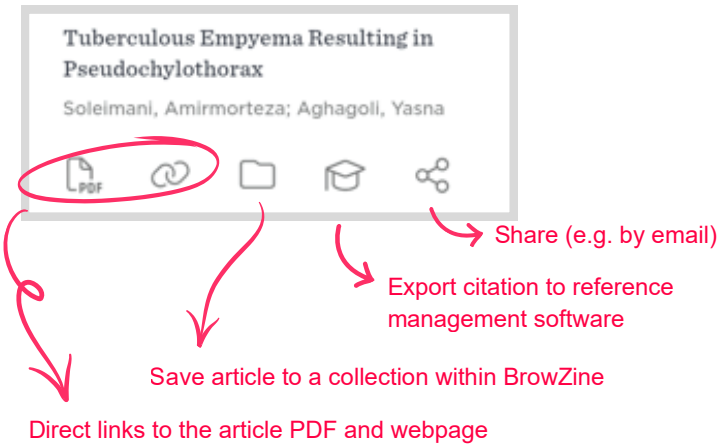


Access Thousands of Journals with BrowZine

Step 4 - Find journals

Search by journal title, subject or ISSN:

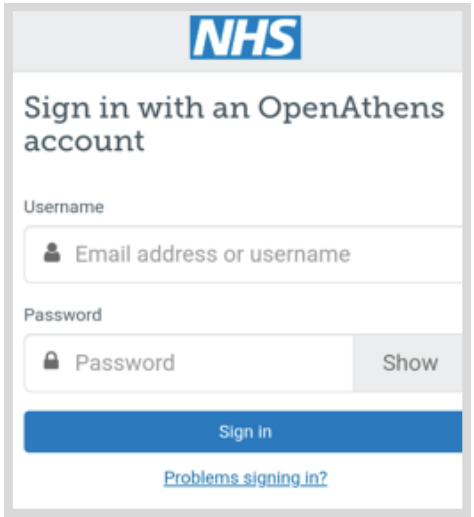




Step 5 - Read articles

Select a journal and find an article you are interested in. You can navigate through past issues of a journal if needed:

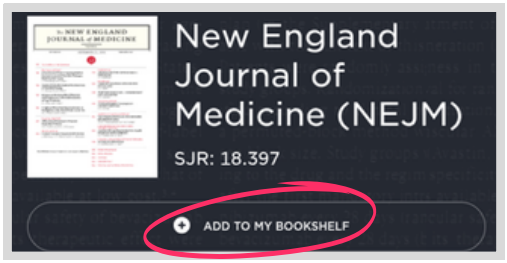
Selecting an article title will link straight to full text (if available) via your OpenAthens login. Remember to save your OpenAthens password to speed things up next time!

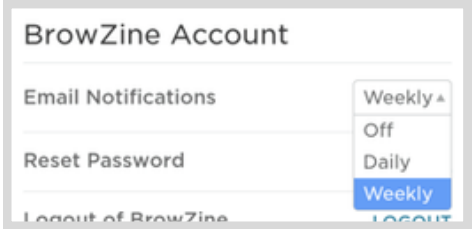


You will see a number of links under each article title, giving you various options:

Step 6 - Add journals to your virtual bookshelf

Select a journal and choose **+ Add to my bookshelf**



Step 7 - Get email alerts for new content


In the **Settings** menu (via ≡ or ⚙️), under **BrowZine Account,** choose **Daily** or **Weekly** from the **Email Notifications** dropdown menu.
